

TRANSFERRING PRESETS ON A SUB 37

Be sure to back up your presets before installing. If you send an entire bank, all 256 presets will be overwritten. If you send a single preset, it will overwrite whatever slot is currently selected.

WINDOWS

- Download and install MIDI-OX: <http://www.midiox.com/>
- Connect the Sub 37 to your computer via USB or MIDI DIN Cable.
- Open MIDI-OX and go to Options > MIDI Devices... Highlight "Sub 37" for both the MIDI Inputs and MIDI Outputs windows. Deselect any other options. Click OK to close the MIDI Devices Window.

TO SAVE PRESETS FROM THE SUB 37

I. In MIDI-OX, go to View > SysEx... In the window that opens, go to Sysex > Receive Manual Dump...

II. On the Sub 37, press the MIDI menu button and scroll with the Increment ▲ button until you see SYSEX >>. Press the Cursor button to access this menu and then use the Inc / Dec ▲ ▼ buttons to select either:

- Send Buffer Sound (sends currently edited sound)
- Send Cur Preset (sends currently selected saved preset)
- Send All Presets (send entire bank of 256 presets)

III. Look for transfer confirmation in the Sysex Receive window in MIDI-OX. Once it completes, click Done and then close the Sysex View and Scratchpad window. You will be prompted to save the file. Click Yes and then label and place the sysex file wherever you wish.

TO LOAD PRESETS ONTO THE SUB 37

I. In MIDI-OX, go to View > SysEx... In the window that opens, go to File > Send Sysex File... Select the preset sysex file you wish to send and click Open. The Sub 37 will receive and load the file automatically.

NOTE: *If you send an entire bank, all 256 presets will be overwritten. If you send a single preset, it will overwrite whatever slot is currently selected. If you send a Buffer Sound, it will not automatically be saved to the Sub 37, you must manually save the preset on the hardware or it will be discarded when you change presets.*

MACINTOSH

- Download and install Sysex Librarian: <http://www.snoize.com/SysExLibrarian/>
- Connect the Sub 37 to your computer via USB or MIDI DIN cable.
- Open Sysex Librarian and select "Sub 37" in the Destination drop down.

TO SAVE PRESETS FROM THE SUB 37

I. In Sysex Librarian, select Record One.

II. On the Sub 37, press the MIDI menu button and scroll with the Increment ▲ button until you see SYSEX >>. Press the Cursor button to access this menu and then use the Inc/ Dec ▲ ▼ buttons to select either:

- Send Buffer Sound (sends currently edited sound)
- Send Cur Preset (sends currently selected saved preset)
- Send All Presets (send entire bank of 256 presets)

III. The saved file will appear in the list. To change the name or move it to a new location, select it and click on Show File.

MACINTOSH (CONTINUED)

TO LOAD PRESETS ONTO THE SUB 37

I. In Sysex Librarian, select the bank or preset you wish to load. This can be done by either:

- Clicking Add... and selecting the file from your computer
- Dragging the file into the Sysex file list. The Sub 37 will receive and load the file automatically.

NOTE: If you send an entire bank, all 256 presets will be overwritten. If you send a single preset, it will overwrite whatever slot is currently selected. If you send a Buffer Sound, it will not automatically be saved to the Sub 37, you must manually save the preset on the hardware or it will be discarded when you change presets.
